DETAILED ACTION

1. Newly submitted claim 16 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Newly added claim 16 is directed to a method claim whereas all the previous claims are directed towards an apparatus. Newly added claim 16 is restrictable from apparatus claims 1-15.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 16 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 103

2. Claims 1-11, 13, 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Harding et al in view of Hale or Reynolds et al as discussed in paragraph 2 of the last office action. As discussed in the previous office action the logic device corresponds with a lookup table to automatically determine the amount of dunnage to make (col 18 lines 15+). Since there is a lookup table which corresponds to a logic controller 48, there are inherently going to be multiple void-fill densities in the look-up table to make a desired or varied amount of dunnage material. The lookup table reads on an input device as claimed.

3. Claims 12, 14 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Harding et al as discussed in paragraph 4 of the last office action.

4. Applicant's arguments filed 5/27/2005 have been fully considered but they are not persuasive. In response to applicants arguments regarding no input device or varied amounts of dunnage being shown, the examiner disagrees with this contention as discussed supra.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
